So, to conclude, the station is alive and thinking, and with much hope, it will stay that way.

Report to the Board

"Short and Sweet, like Butter (except for the grammatical errors)"

Here I sit, in a new chair, looking around at an office freshly painted white. New students are falling into this place, begging to "do anything," and those in management positions are making use of this eagerness. The introduction of so many new people to the station really has increased and improved the vibe of the station. The ideas are all around, this is what student broadcasting is about.

Our new advisor, Steve Metze, is acquiring the pallet for KVRX that he will need in order to be effective in his role. He has already contacted the Union about KVRX broadcasting in the dinning areas. Our underwriting department is contacting the various businesses we provided underwriting to during the summer, and so far the response has been nice. Just yesterday, which is not that far away, two businesses signed-up. The sponsored public service announcements have also begun arriving in bulk, and soon, so will the checks. Our most recent benefit (Aug. 22), raised about $800. As for our next installment of the Local Live CD, we have decided on a name. It will be "Late Last Night As I Lay Screaming." We have begun contacting the bands and believe we will be able to make our release date of late November or early December. Finally, our FM schedule is firmly in place and soon the Call-Letter will deliver this schedule to the public.

So, to conclude, the station is alive and thinking, and with much hope, it will stay that way.
